# THREADLABS

SMART INDIA HACKATHON 2026

## PROPOSED SOLUTION

### Problem at hand

- Many skilled **artisans** depend on local contacts, word of mouth, and occasional physical opportunities to find customers.

- At the same time, customers may have a specific outfit in mind but may not know whom to approach to get it made.

### Our Solution

- **ARTISAN DISCOVERY + SMART CATALOG + AI CUSTOMIZATION + ORDER MANAGEMENT.**

1. ThreadLabs connects **marginalized artisans** with customers through AI-powered discovery, design and **digital commerce.**

2. The artisan becomes discoverable, matched and order-ready while the **customer's idea** becomes a structured production request.

# FEASIBILITY AND VIABILITY

SMART INDIA HACKATHON 2026

- ThreadLabs is a highly feasible hackathon project as it can be built using existing technologies, real partnerships and a sustainable model.

## Technically Feasible

Multimodal AI:

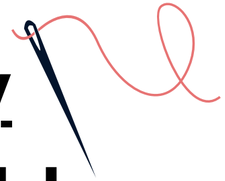

- Text, Voice, Sketch & Image.
- AI design generation & refinement.
- Virtual try-on.
- Scalable web architecture.
- Existing AI APIs & cloud tools.

## Economically Viable

- Custom-order commissions.
- Tailor / artisan subscriptions.
- Brand & fabric partnerships.
- Premium AI features.
- Scalable operating model.

## Practically Implementable

- Existing artisan & micro-entrepreneur networks.
- English, Hindi, Tamil, Bengali & Telugu support.
- Simple, beginner-friendly workflow.
- Human validation before production.

# IMPACT AND BENEFITS

SMART INDIA HACKATHON 2026

- More than just fashion - it’s a bridge between artisans, people, culture and a sustainable future.

## For Artisans :

- Access to new customers.
- Digital commerce & order management.
- More opportunities for traditional craftsmanship.

## For Users :

- AI-assisted fashion design
- Personalized custom garments
- Virtual visualization before production
- Better design-to-tailor communication

## For Culture :

- Material and heritage information.
- Visibility for regional textiles and crafts.

## For Sustainability :

- Custom production reduces overproduction. Creates Optimal production.
- Potential
- resell/donate/upcycle pathway(for old garments).
